I simply love this radio station, God has used it to bless my heart beyond measure in the last few months. It has so much variety of praise and worship and is very well done. I especially enjoy a section during the weeknights called 'reflections' in which there is just instrumental music. I am praying about featuring this radio station on the front page so people can click and listen to it live anytime while at sermonindex. There is also focus on the family and chuck swindoll every weekn ight.

after searching around for a bit I found a site that has an extensive list of Christian internet radio sites. You can find just about anything under the sun to listen to on this site:

yea I love the quality of this station, its listener supported so if you use it everyday you might want to consider helping them out. I still have to follow my own advice on that one :-D

I am praying about contacting them to see if they could use any of the audio sermon materials for their station, wouldn't that be awesome.
