Right on, Greg!

May I also suggest doing the "featured sermon" as a podcast.

Bless you, brother!

That is a great suggestion that has been echoed by a few other members and I will definetly get this in place very soon. I am so glad for all the members that contribute ideas and suggestions to make this one of the best online resources for God's people.

Thanks for the encouragement brother, these shows are in the production phase. I am paying a nomial amount to have a professional speaker make intro's to the shows. It should sound great and be of a quality that is worthy to be shared. Thanks for the prayers and patience dear saints.

work on these podcasts are in development, the voice overs are being published as we speak and the time to start producing the individual shows will begin soon. Do pray that this will be a fruitful part of this ministry and allow the audio messages to spread further.

Yes, I am thinking of making itunes the primary way to option them. I will also have a download category for them on SI. Also I hope to get the "shows" onto many christian internet radio shows and also even on some actual radio stations (small christian ones). Do pray there is favor for this to happen!
