

SermonIndex Support :: Download help**Download help - posted by aartod (), on: 2006/8/31 0:22**

Hello! I am having some trouble downloading MP3 files... When I right click on the sermon I want to download it does not give me the option to select "save target as" but it does have "save link as" so I used that option and it downloads a file called visit.php instead of the sermon!!! I don't know that much about computers (just the basics) so any help you could give me would be appreciated!

Okay I answered my own question....

Here it is-- I was using Mozilla Firefox and apparently the right click options are different than Microsoft Internet Explorer... So my solution is to use Internet Explorer instead!
