Check this site out and see what you think. You can listen to his music by clicking on the music tab in the bottom left-hand corner of the page. Please let me know what you all think.

Hi

I can't visit the site without downloading the latest Flash player.

Not sure I trust those things - especially after getting a bug on my computer!

Is there any way around it?

Sorry Jennette,

I don't really know how to do what you're asking, but I'm sure someone on here does. ;-)

Hopefully you can get on the site somehow, because his music is really great. My favorite songs are 2000 Years, Sanctus, and In Rest.

Actually it's pretty cool.

Not really, one thing you can do is go to the flash site <http://www.adobe.com/products/flashplayer/> and get a secure copy of Flash, and if you still don't want to trust that, you pretty much gotta do without flash.

He actually goes to my church in Thompson Station, TN. He used to sing pretty regular during worship service. But now he has been touring with Beth Moore. He sung that song 2000 years during service, its a great song. He sings In Christ alone great.

Yeah,

I have his new CD now and the song, 2000 Years made my mom cry on the way to church a couple of weeks ago. What a convicting song. We can look back with 20/20 vision now, but would we have followed Christ then?
