

SermonIndex Support :: forum threads?

forum threads? - posted by hmmhmm (), on: 2007/12/13 15:38

my guess is the problem come from changing and updating the site? or is it just me who cant read the threads?

I am in the midst of a SQL database upgrade, the forums and all other parts of the site should be operational fully in 20-30 minutes.

Thanks for understanding.

It appears the database is still transferring on the forum end of things. You can make new threads but to reply to old threads is fully not capable at this point.

Thank you for the prayers and patience.
