Saints,

If there are any specific audio sermons that are not downloading fully please list them here. I want to ascertain if its just a user end problem we can solve or some incomplete files that are on other servers.

I appreciate it.

The link to the following audio sermon by Leonard Ravenhill pulls up the wrong sermon. It pulls up "Revival" instead.

Repent, Repent, Repent by Leonard Ravenhill

I was able to download more then that. If you are having trouble downloading alot of sermons what I would do is downlo ad a "download manager" to download the sermons.

Here is a free one you can use: <http://www.freedownloadmanager.org/>

Thank you, Brother Greg. I'm beginning to think it must be my computer. I was only able to download 3/4 of the video teaching of the Judgement Seat of Christ by Leonard Ravenhill. Too many teachings aren't downloading fully for me and it can't all be due to the teachings.

I have a new iMac so I'm not sure how to troubleshoot the problems I'm having. I'll have to check with a friend of mine who is a Mac expert. The Download Manager doesn't support Mac. Thanks again!
