R. A. Torrey is one of those men of God of whom I would tell every Christian, "Read everything he wrote!" I'm pleasantly amazed that there is a voice recording of one of his sermons here on Sermonindex.

Listen to his sermon or read his books and discuss this great man of God.

Are there any good biographies on this man of God? And what is your favorite books in your estimation? (I asked that in your welcome thread but probably more applicable to discuss it here).

In high school, I studied a book called R.A. Torrey: Apostle of Certainty by Roger Martin. I believe this is the only biography on the market.
