Anyone else listened through the album yet? This is probably the best musical project I have heard from a modern Christian. Another one that is not far behind is his CD "The Atonement".

I haven't listened to "storiez" yet, but "The Atonement" is a great album.

The track "Atonement Q & A" is amazing.

I also happen to like Lecrae and Trip Lee as well.

Have you heard the "16 Letters" album? It goes through all the Epistles of Paul and it is also tied into a curriculum that is given to prisoners and kids at the churches these guys perform at.

I have heard several of the tracks from 13 Letters. Good stuff.

On Storiez, Evangel has a very good verse on "As the Hour Draws Near"... and "Letters from the Grave" is very sobering

Is this album available on Amazon yet? I have the Solus Christus and the Atonement albums, The Atonement is more exegetical than Solus Christus, but both are good. Atonement Q&A is definitely a good one, but I don't know if it gets any better than the Triune Praise track. Am looking forward to this album as well...

I got it off Amazon's mp3 download service.

I stumbled across this message, <http://www.sermonindex.net/modules/mydownloads/singlefile.php?lid=16819&commentView=itemComments>

It was given at a 2007 reformed rappers conference. I'm looking forward to listening to it.
