

**Welcome & Intro :: where is the search button****where is the search button - posted by bobmutch (), on: 2008/12/12 10:25**

I was wanting to do a search on a topic to see what is on the site concerning this topic. I can't seem to find the search button. I am sure it is sitting right in front of me but I just don't see it.

Thanks!

Bob.

There's a Google search button near the top of the main page. The best way to search past discussions is to go to 'Discussion Forum', scroll to the bottom of that page, click advanced search and it should give you (<http://www.sermonindex.net/modules/newbb/search.php>) this page
