I would suggest you try download some different messages that would be in different bit rates, its possible there could be a very minimal support for certain audio bit rates, I used to have one mp3 player that was very peculiar and selective and I had to reconvert files into that format.

In the (<http://www.sermonindex.net/modules/mydownloads/viewcat.php?cid8>) Paris Reidhead section there are 2 versions of the file "Ten Shekels and a Shirt" download both of them and see how that works? other than that I would ask that you refer to their website and the support manual for your product. Good luck.

I found out from the mfr. that the device has to be FAT 16, would that formatting interfere with your downloads?

Thanks  
Biblicist.

I don't think so. Please refer to this thread:  
([http://www.sermonindex.net/modules/newbb/viewtopic.php?topic\\_id2729&forum21&3](http://www.sermonindex.net/modules/newbb/viewtopic.php?topic_id2729&forum21&3)) Some mp3 sermons I cannot play in the cd/mp3 player!
