What have you seen in revival regarding testimony, any thoughts on how it "functions". Particularly mr. Richards who spoke of "Spirit ministering out of the spoken word/out of the heart the mouth speaks". Have you known Spirit ministering to Spirit? Any more to say about this?

How can we explain what appears to be God's power moving in places in the world like China, who seem to lack in bibles, and doctrine, yet in places like America, we have all the bibles and doctrine, yet no move of God?
