<http://livingdinos.com/dinosaurpictures.html>

here is another good site

Re: - posted by bible4life (), on: 2009/11/20 13:39

I truly believe that this world is trying to hide these things so they can keep God out what is ridiculous. I found other sites saying oh these our fakes or basking whales, you know what i think these look nothing like basking whales and why our they trying to push this stuff to the side, this should be thoroughly studied if their even be a chance. They want evolution to rule the world thats why.
