Hi, I love this site. I found a message on the site that just literally had a colossal impact called "The Devil's Nightmare" (page 6, Carter Conlon) but it is asx format and will not burn in the Windows Media Player. I've tried everything I can think of because I think everybody needs to hear this message at my church, but I can't get it to burn. I've adjusted settings, it will play but will not burn. Any ideas? I sure would appreciate it. Thanks and God bless!

Kathleen (Shalee is my daughter's name and when I registered, my name was already taken)

May the Grace of our Lord Jesus Christ, the love of God and the communion of the Holy Ghost be with you. 2 Cor 13:14

It has to be in mp3 format to be burnable to a CD. I have gotten most of the asx versions into mp3 also but I will double check this one and if there is no mp3 counterpart I will try and get it up ASAP.

God bless you! I really want this message. I have been praying the Holy Ghost will help me lay ahold of this and increase my faith because this message stirred me up so much. Thank you. There is another of Pastor Conlon's "Preparing to sing in a difficult time" in asx. format. I really appreciate this web site, it has changed my life, and my mom's.

Sincerely,
Kathleen

God bless you, Brother! I can't thank you enough!!! Praise the Lord!!!! This means a lot to me. I've already listened to this message several times. I wish every Christian would listen to this and become the Devil's nightmare!!!

In Christ, and grateful to be,
Kathleen
