

SermonIndex Announcements :: Quote Function and URLs for the forums

Quote Function and URLs for the forums - posted by sermonindex (), on: 2010/10/4 17:34

Saints,

I am excited to announce that the quote feature is now working again in the forums. we have decided to disable all other BBCODES so the only code that will work is the

Quote:
-----quote feature.

You will notice the button at the top of the new or reply feature to post the quotes.

Also if you simply type a website domain out: www.sermonindex.net or http://www.sermonindex.net it will automatically hyperlink including any links you post.

Amen sister.

I paid a coder CJ from the USA to help with this change and some SEO changes. They are things that were abit above my level of coding and its some things I wanted to see changed for over 1 year!
