I agree Natan!

I clicked on it to see, ready to x out and immediately Russian lettering came up before any video and I was gone.

DO NOT CLICK ON THIS VIDEO unless Sems can explain what it is!!!

I watched the video on my Mac. (You know, the OS that does not require 158 antispam, antivirus, anti-everything loaded on the hard drive)

It was a ladies testimony of killing herself, going to hell and coming back.

No way to validate it whatsoever.
