Francis Chan shares about inviting GFA speakers to your church - posted by sermonindex (), on: 2011/5/18 10:51

Saints,

We are not actively promoting GFA on the forums here, as many are aware of the current problems and losing of ECFA status. Please be in prayer for the ministry and leadership that they would repent where they would need to and seek the face of the LORD.

I have known of Paul Hattaway for many years and through multiple testimonies he is a dear brother and equips very small groups, house churches and indigenous networks of believers to share the gospel with unreached people groups: <http://asiaharvest.org>

There are no large central offices for this ministry and everything is run essentially by faith in a very small and frugal way. The philosophy of how we run SermonIndex and how Asia Harvest runs is very similar.

We recommend this ministry. For only \$1.80 you can give a bible to an underground Chinese house church brother or sister: <http://asiaharvest.org/china-bible-fund/>

Saints,

I whole-heartily recommend this ministry to your local church, they will encourage, challenge and bless your local body. I invite a GFA team to minister your church share with you the wonderful things God is doing in India and beyond and also share the spirituality of the missionaries that are being used of God to see this great commission filled!

GFA Speakers at your Church

Pastors tell us that church involvement goes up dramatically after having a GFA speaker, who challenges their congregation to live selflessly and with an eternal mindset. The Word of God will come alive as one of our passionate speakers shares with your church.
