

SermonIndex Support :: a printable list of sermons?

a printable list of sermons? - posted by das, on: 2004/12/3 5:37

Hi, thanks for one of the best christian resource sites on the web.

is there available a downloadable printable list of the available sermons, so that I can give that to people. then they can choose what sermons they would like to listen to, and as I'm the one with broadband access I can download the ones they want and give it to them, to bless them.

Thats a great idea and perhaps thats something I can pull together for now perhaps just make some random copies for y our friends. I suggest the featured sermons on the front page. I will try in the meanwhile to get something together as I have time.

may I suggest starting with mp3bookhelper, this can extract the id3tag info to csv/text files. from the sermons I've downloaded already I can see not all have id3 tags, but its a start
