What is the easiest way to navigate to the online audio books here at sermonindex? I found them once but must use search to find it now.

Hi there, on the home page click on the link that says 'Audio Sermons' on here you will see two columns of preachers listed with thumbnail pictures, just below the first column of preachers is a link that says audio books.

Here is the link for you as well: <http://www.sermonindex.net/modules/mydownloads/viewcat.php?cid=670>

Hope this helps.
