Brethren,

The sermons seem to be down right now. I was getting an error from the hosting company when I tried to load a Redpath sermon on fasting. If you are facing this too please post and join in lifting up SI.

Praying brother,

I received the same message trying to download a sermon on world-wide evangelization by KP Yohannan.

God Bless!

Re: Clear cookies to resolve false error messages - posted by Jeremy221, on: 2011/9/23 12:08

If you are having trouble loading media/sermons, you might have same problem I did. I discovered they would load fine in another browser but my main browser was still loading the Cloudflare error page. To fix this I cleared my cookies and things returned to normal.
