Saints,

For some reason in the last week the site has been demoted in google and even take out of search rankings completely. We are working hard to fix this issue so please pray for this to be resolved.

What the enemy means for evil, God means for good. The Lord will bring glory out of this for His Name. Thank you for y our continued prayers for this website and ministry as these powerful sermons go out world-wide.

Greg, you are right! It used to be I could google my nickname and it would show up quickly on the first page of google. Now I cannot even see it in the first six pages, or so. Have no idea how deep I have to go to find it.

God bless..
