

Together Reaching the Young Generation with THE FATHER HEART OF GOD - posted by sermonindex (), on: 2013/1/25

Saints,

There is a need for the younger generation to see the right picture of the Fatherhood of God and also to be mentored by spiritually mature father figures in the Church. Therefore a conference like this is needed, I commend any churches or youth groups to consider doing this as the Spirit leads.

Youth need to believe that God has a plan for them and wants them to be separate from the world system and be used for His kingdom purposes. MTV and other role-models need to be dashed to powder as the youth see the true love and character of God and His desire for them to serve Him, to GIVE THEIR ALL TO HIM AND TRUST HIM.

The vision from the organizer:
