

SermonIndex Announcements :: Extra Features or Content for SermonIndex?

Extra Features or Content for SermonIndex? - posted by sermonindex (), on: 2014/7/20 19:06

Saints,

Over the years we have added many new content feature sections and functions to SermonIndex. As well as taken down some features also in the forums for security and other reasons.

Are there any ways we can make the site better? We do get emails on basic ideas and things we could do. Thank you for your feedback, any thoughts will help.

One idea has been to start a section for blogs and have some servant leaders contribute content into blogs. This might be a way for many godly men who could speak out to more saints on important current issues and biblical topics? We would have commenting enabled for these blog posts.
