Listen to the Ravenhill interview that Greg has posted here.  
There is no other answer folks. God's people must fall to their faces in prayer... individually and corporately.

Fight the good fight brothers and sisters, today.

To so many in My Seatte-ite area, socialism is a good thing. Socialism cares about the individual...but then there is this. This is what socialism does when the favorite sin of a nation and those who commit that sin gain power and influence. They silence their adversaries.

How is this silencing adversaries? Take away the accreditation of the school and you take away the 'right and privileged of the graduates' to use those degrees to enter public work/service.

Here, the Canadian government is telling it's citizens "we give no respect or honor to any 'Christian' perspective with a law-degree". You cannot have a place of authority in our courts if you are a Christian.

Millennials take note. This is what socialism does. So many parents have raised their children to adopt this kind of thinking because on the surface "you get what you want". So, now that you can vote...you vote to "get what you want". But underneath that selfishness is the kind of injustice that spawns the communist regimes, the Nazi regimes. All of those political powers seek to crush Christianity from the public place and silence its voice. When the Christian voice is silenced there is nothing left to listen to but the voice of the oppressor.

All of those horrible things you detest that you see in the movies and TV, you will do and enjoy doing...because you were slowly indoctrinated into injustice, inequity, lawlessness, perversion, murder, theft, corruption.

Jesus is the only way for salvation...and he's the only way to live in this world without becoming a monster to your neighbor and relative.
