Historic Wakefield church will be torn down after devastating fire

WAKEFIELD — For generations, the First Baptist Church stood at the heart of this town north of Boston, its white steeple rising high above a classic New England common on the shore of Lake Quannapowitt.

On Wednesday, just hours after a massive fire ignited by a lightning strike engulfed the 1872 church, residents gathered in disbelief as workers dismantled the charred remains under drizzling skies. One item that survived: a painting of Jesus, virtually unmarked by fire, smoke, or water.
