Thank you all for praying,just an update,my mum came home from hospital after 3 weeks but had to go back in as she was retaining fluid and found it hard to breathe.She was pretty low but rallied well.She is still coughing though and I would like you to continue to pray for her chest to clear up.Thank you all again ur prayers are so appreciated Hugh

Thanks again for your continued prayer for my mum,now almost a month in hospital,the infection seems to be going away, she is steady but weak and doesn't have a great appetite and her blood pressure dropped this evening ,they have put her on an IV drip and I'm praying that it will normalize overnight.Please continue to pray for her Salvation to the Lord and for her recovery,Hugh
