Some time ago this request was sent to Sermon index forum

"In one of his sermons Paris Reidhead tells a story of how Tommy Titcombe first walked into the village where he started his mission in Egbe land. He talks about how he lay on a large rock and preached the gospel to the tribe, and later how the local witch doctor and some of the tribes men threatened to kill Tommy and the converts. Does anyone know what the name of that sermon was? I would love to hear it again. I literally sat and listened to all the Reidhead sermons I have and can not find it. I know I used to have it but I'm at a loss. This was one message that really blessed me. Thanks."

I am answering that request: Go to Paris Reidhead speaker .Use the #8 on the bottom of that page Missions around minute 30

The whole ministry in the first 20 years was the gift of miracles. No other explanation on how 20,000 people were brought out of Cannibalism to the Lord Jesus Christ through the ministry of one man.
Blessings- Eileen
