I thank the Lord for your fellowship....
is there anyway to get these sermons onto my ipod?

Re: thanks for sharing... - posted by sermonindex (), on: 2005/10/24 16:25

Great to see that you have registered and are taking advantage of the resources on this site and also the online fellowship of Christians all across the world. If you haven't already I would recommend out download this sermon: Ten Shekels and a Shirt by Paris Reidhead.

As for downloading onto your ipod. First you would need to start to download sermons off SermonIndex by finding the sermon you want and right clicking on the sermon title and choosing "save target as" or on the mac "download linked file" and then start to make some folders and rename the sermons you download. Then you would need to import the sermons to itunes and then from there sync to your ipod :-)
